

HI, THERE

**ADNAN MANSURI**

FRONT-END DEVELOPER

# ADNAN MANSURI

## FRONT-END DEVELOPER

### PROFESSIONAL SUMMARY

Front-End Developer with over 2+ years of professional experience crafting responsive, interactive, and user-centric web applications. Currently employed full-time at **AMPV Media**, building and maintaining modern interfaces using HTML, CSS, JavaScript, React.js, Next.js and GSAP for smooth, high-impact animations and micro-interactions. Complement my full-time role with selective freelance projects, consistently delivering clean, performant, and pixel-perfect solutions. Passionate about writing scalable code and creating engaging, seamless user experiences.

### WORK EXPERIENCE

#### AMPV Media

2024 - Present

#### Front-End Developer

- Develop and maintain responsive web applications using React, HTML5, CSS3, and modern JavaScript (ES6+).
- Build and customize high-converting Shopify stores using Liquid templating, Theme Kit, and Shopify CLI alongside modern front-end tools.
- Implement smooth animations and scroll-triggered effects with GSAP for landing pages, marketing sites, and Shopify storefronts.
- Work closely with designers and back-end developers to convert Figma designs into clean, pixel-perfect, and accessible code.
- Build reusable components to ensure consistency and faster development cycles.

#### Freelance Front-End Developer

2022 - Present

#### Self-Employed

- Completed 5+ freelance projects including custom Shopify stores, animated landing pages, and React-based web apps.
- Delivered fast, modern websites using React, GSAP, Shopify Liquid, and deployed via Vercel, Github Pages, and Cloudflare Pages.
- Implement smooth animations and scroll-triggered effects with GSAP for landing pages, marketing sites, and Shopify storefronts.
- Managed full project lifecycle: client communication, development, testing, and production deployment.
- Consistently shipped clean, well-structured code on time, even under tight deadlines.

### SKILLS & IDE

- HTML5
- CSS3
- Tailwind CSS
- Javascript (ES6+)
- jQuery
- React.js
- Next.js
- Lenis
- Github
- Bootstrap
- GSAP (GreenSock Animation Platform)
- Locomotive Scroll
- Shopify
- Wordpress
- Visual Studio Code
- Anti Gravity
- Sublime Text

## PROJECTS

### Blue Tees Golf

2024 - Ongoing

**URL:** <https://blueteesgolf.com/>

**Tech Stack:** Shopify (CMS), Liquid (Shopify's Templating Language), GSAP, JavaScript, HTML, CSS

#### My Role

In this ongoing project, I lead front-end development for Blue Tees Golf's Shopify store, building and customizing the UI with Liquid, HTML, CSS, and JavaScript to deliver a responsive and engaging shopping experience. I integrate smooth animations using GSAP to enhance interactivity and modern feel. Additionally, I handle site maintenance by fixing bugs, optimizing performance, and ensuring cross-device compatibility. I collaborate closely with the client, gathering requirements, providing updates, and incorporating feedback to align features perfectly with their brand vision.

#### Key Responsibilities:

- Customized Shopify UI with Liquid, HTML, CSS, JS.
- Added GSAP animations for interactivity.
- Fixed bugs and optimized performance.
- Handled client communication and updates.
- Matched features to client's brand needs.

### The Shoe Tales

2025 - Ongoing

**URL:** <https://k4wubs-2g.myshopify.com/>

**Tech Stack:** Shopify (CMS), Liquid (Shopify's Templating Language), JavaScript, HTML, CSS

#### My Role

In this ongoing project, I develop the front-end for The Shoe Tales, a Shopify store selling custom handcrafted sneakers and footwear. I customize the UI with Liquid templates, HTML, CSS, and JavaScript to create responsive pages, including product customization features like size selectors and image uploads. I build banners, collections, featured sections, and integrate elements like Instagram feeds and WhatsApp chat for better user engagement.

#### Key Responsibilities:

- Customized Shopify UI with Liquid, HTML, CSS, JS.
- Added GSAP animations for interactivity.
- Fixed bugs and optimized performance.
- Matched features to client's brand needs.
- Handled client communication and updates.
- Created banners, collections, and featured sections for better user flow.

### Brooklyn Travel & Tourism

2022 - Ongoing

**URL:** <https://brooklyntravelandtourism.com/>

**Tech Stack:** React, DatoCMS, Vercel (Hosting), Github, Node.js, Axios, GraphQL, Lenis Scroll

#### My Role

In this ongoing full-stack project, I develop a travel and tourism platform for Brooklyn using React for the front-end, Node.js and GraphQL for the back-end, and DatoCMS for content management. I design UI/UX in Figma, integrate APIs with Axios, build custom tools for services like bookings and visas, deploy on Vercel with GitHub for version control, and handle regular client communication to meet requirements.

#### Key Responsibilities:

- Developed front-end with React for responsive UI and dynamic features.
- Built back-end with Node.js, Axios, and GraphQL for API integrations.
- Integrated DatoCMS for content management.
- Designed UI/UX using Figma.
- Developed custom tools for travel services.
- Handled client communication and updates.

## Aditiya Synthetic

2024 - 2024

**URL:** <https://aditiyasynthetic.vercel.app/>

**Tech Stack:** React, Vercel (Hosting), GSAP, Lenis Scroll

### My Role

In this project, I developed the front-end for Aditiya Synthetic, a synthetic fabrics manufacturing company website. Built with React, I created a modern single-page application with smooth scrolling using Lenis Scroll, engaging animations via GSAP, and responsive sections for home, products, about, and contact. Deployed on Vercel.

### Key Responsibilities:

- Built responsive UI with React.
- Added GSAP animations for interactivity.
- Designed sections for products, about, and contact.
- Handled client communication and updates.

## Significo (Clone)

2025 - 2025

**URL:** <https://mansurivilla.github.io/Significo-clone/>

**Tech Stack:** HTML, CSS, JavaScript, GSAP, SVG, Lenis Scroll

### My Role

In this personal practice project, I cloned the Significo website to showcase my front-end skills. I recreated the modern agency-style layout with custom SVG text animations (rotating text on circle paths), responsive sections for services, team, and contact, plus interactive hover and scroll effects using GSAP.

### Key Responsibilities:

- Built responsive UI with HTML, CSS, and JavaScript.
- Recreated hero, services, team, and contact sections.
- Created custom SVG text rotations and paths.
- Added GSAP animations for smooth interactions.
- Recreated hero, services, team, and contact sections.

## Ova (Clone)

2025 - 2025

**URL:** <https://mansurivilla.github.io/ovaclone/>

**Tech Stack:** HTML, CSS, JavaScript, GSAP, Lenis Scroll

### My Role

In this practice project, I cloned the OVA investment fund website to demonstrate my ability to replicate clean, professional designs. I built a minimalistic single-page layout with slide-based portfolio and company sections (overview, mission, vision), focusing on pixel-perfect structure and responsive design.

### Key Responsibilities:

- Built responsive UI with HTML, CSS, and JavaScript.
- Created slide-style portfolio and info sections.
- Designed hero, mission, vision, and contact areas.
- Optimized for fast loading

## What A Fuel

2024 - 2025

**URL:** <https://whatafuel.com/>

**Tech Stack:** HTML, CSS, JavaScript, GSAP, Lenis Scroll, PHP

### My Role

In this project, I developed the custom "coming soon" landing page for What A Fuel using HTML, CSS, and JavaScript. I implemented smooth scrolling with Lenis Scroll, engaging animations via GSAP, handled email functionality with PHP for contact inquiries, and created a professional layout with contact details and location info.

### Key Responsibilities:

- Built custom UI with HTML, CSS, and JavaScript.
- Implemented Lenis Scroll for smooth scrolling.
- Added GSAP animations for interactivity.
- Handled emailing with PHP for contact features.
- Designed coming soon page with contact/location details.
- Optimized for mobile and performance.
- Handled client communication and updates.

## Lamsa infosolutions

2024 - Ongoing

**URL:** <https://lamsa-fawn.vercel.app/>

**Tech Stack:** React, GSAP, Vercel (Hosting), Github

### My Role

In this ongoing project, I developed the front-end for Lamsa Infosolutions, a company website showcasing security, IT, and web solutions. Built with React, I created a modern, responsive single-page application with smooth animations and interactive elements using GSAP, deployed on Vercel with GitHub for version control.

### Key Responsibilities:

- Built responsive UI with React.
- Added GSAP animations for interactivity.
- Designed sections for services, about, and contact.
- Matched features to client's brand needs.
- Optimized performance and mobile experience.
- Deployed to Vercel and managed via GitHub.
- Handled client communication and updates.

## Cupreon

2024 - 2025

**URL:** <https://cupreon.in/>

**Tech Stack:** HTML, CSS, JavaScript, WordPress (CMS), Lenis Scroll

### My Role

In this project, I developed the custom company website for Cupreon (a copper manufacturing business) using HTML, CSS, and JavaScript on WordPress as the CMS. I implemented smooth scrolling with Lenis Scroll, created a responsive layout with sections for products, about, applications, sustainability, and contact.

### Key Responsibilities:

- Built custom UI with HTML, CSS, and JavaScript on WordPress.
- Implemented Lenis Scroll for smooth scrolling.
- Designed responsive sections for products and company info.
- Optimized for mobile and performance.
- Added interactive elements and animations.
- Handled client communication and updates.

## HOBBIES

Gaming, Reading, Learning, Coding

## LANGUAGES

English, Hindi and Gujarati

## ACADEMIC HISTORY

### Secondary School Examination (10th Grade) | 2018

CBSE Gujarat Board

## CERTIFICATION

### SULTAN AHMEAD | 2023

Front-End Development Certification

### Vercel | 2025

Next.js Framework Certification

### Coursera | 2024

React – Meta Front-End Developer Professional Certificate by Coursera (Taught via Scrimba platform)
